

THE HERALD.

JOHN P. BARRETT, Editor.

WEDNESDAY, FEB. 6, 1884.

As we go to press, we learn that the census Monday night, adopted a rule to drop the hindmost man, and as this paper reaches our readers, a nomination for Senator may be made.

We have time and again endeavored to present to our readers that the remedy for the ruinous policy that has characterized the legislation of this government was to place in power in the departments, executive and legislative, the Democratic party. We have aimed, modestly and justly, we hope, but with a firm hand and determined effort to expose to view the workings and teachings of the Republican party on the tariff, with which a portion of the Democratic agree, notably or most, to those who represent agriculture, the manufacturing interest, and a great future.

We have said that the Democratic party, as a party, contended for this policy as being the correct one under the present surroundings such tariff as would produce revenue sufficient alone to pay the expenses of government economically administered.

We now propose to give further extent of our sincerity and to more fully explain and call attention to the means by economical administration of the government. To reduce its expense, we have the people's money, the more prudent and less lavish with "spending" it. Reduce the expenses of the government, and the best place to commence it is at salaries of its officers and employees. The President is \$50,000 annually, besides traveling in a style altogether worthy of him. While none and his apartments and providing the incumbent with a number of employees and an extravagant outfit for provisions, etc. Senators and Congressmen get \$5,000 annually, and the presiding officers a still larger amount besides salaries, perhaps twenty dollars for every hundred miles traveling going to and returning from Washington. They have paces and employees more than is necessary to wait on them. Many of the committees have clerks at salaries ranging from \$2,000 to \$3,000 per year. We say that, nearly, if not all, the salaries are too large, are excessively extravagant. Our theory is that these incumbents fair, reasonable, and provide them such aid only as the convenience and dispatch of the business render necessary.

This is truly a question of business, too. No President ever received exceeding \$25,000 before General Grant. The question is, what is the necessity of paying now \$50,000. It cannot be urged that, including General Grant and all of them since that, we have had better, more patriotic or greater men. Washington, Jefferson, Jackson and others, all will admit, of all parties were equal to any of those who live, and received a \$50,000 salary annually. If this is so, why the necessity and excuse for paying so much? We have heretofore obtained the services of the incumbents for sums not exceeding half of the present salary, and cannot be defended with any plausibility. We never that this salary should be reduced. And, too, the furniture is extravagant beyond conception. That there are employees too many all admit. And, too, look at the salary, as it is termed, of a Congressman, \$5,000 per year, mileage and other expenses. These expenses are paid, besides the franking privilege. Now why the necessity of this salary? If the incumbents would take the office for a less sum, and they would for one-half, and that is enough, why give more? Far less has obtained the services of others as good. Then why pay these extravagant salaries? We do not do this in other business transactions. Will not give the incumbent \$25,000 per year for doing what he can do for \$12,500. For instance, when we get the same kind of article for one-half that price from his next door neighbor, we get the same kind of article for one-half that price from his next door neighbor for one-half the price.

We think that the people should be educated in the education of the big error that to them earn their living by hard work it amounts to a great deal. If the money must be spent, better appropriate it to the improvement of the country or to reducing the taxes of the people.

We propose to further call attention of the people to this question, and urge them to see to it in the elections in the future. There is no such word as fall in this movement. If they are for Lewis of the candidates if they are for Lewis, and will they pledge themselves in good faith to work for it.

The trial of Wm. Neal, the last of the Ashland murderers, was held at Grapewin, yesterday. The evidence against him is very strong, and the probability is that he will hang on the same gallows that was erected for Caff.

We have before us the initial number of the Kentucky Register, published at Calloway, Ky., by F. P. Purcell & Co., and edited by Rev. F. P. Purcell. The paper is a monthly, seven cent quarto, and reflects credit on it. It is devoted to the interests of the Baptists of the Green River country, subscription price \$1.00 per annum. We wish it success.

A MAN IN MICHIGAN.

First speech in Congress last week in the way we like the people.

JOHN ANDERSON and Zuck Soper were hanged at the gallows last Friday for the murder of James Wallace.

Journal of Bert Wing, for the murder of Jos. Glenn in St. Louis, has been set for the 11th of February.

JOHN JACKSON on last Thursday returned, Geo. W. Levy, and Cape Sharp to the penitentiary for a term of three years each.

Advertisements in the New York Herald cost \$10.00. The advertisers of the Hartford Herald, think \$20.00 a year for advertising.

The Sheriff of Logan county, has let out a locomotive belonging to the L. & N. Ry. for taxes due him from the same for 1883. That's the way to get it.

The Penitentiary at Stillwater, Minnesota, was destroyed by fire last week and other prisoners, including brothers, were taken out and placed under a heavy guard in the yard. The loss is estimated at \$200,000.

Hon. T. A. BOUTWELL has appointed Ben Hayden, of Kentucky, to the Cadetship in the U. S. Naval Academy, at Annapolis, Maryland, to take the place of James Thompson, who failed to pass examination.

The Farmers' Journal, edited by Col. L. B. Nall, Louisville, Ky., came to us last week, greatly enlarged and improved. It is a paper of much interest, and its policy, which will be appreciated by its elderly subscribers. This is one of the very best farm papers published in Kentucky.

JACOB JOHNSON, was tried last week for the murder of George W. Wallace, and found guilty. A motion was made for a new trial, but overruled by Judge Dabney. The prisoner was brought to the bar and sentenced by Judge Dabney to hang Saturday, March 22, 1884. The case will be appealed.

We hear the name of Mr. Charles S. Walker, of Owensboro, mentioned in connection with the race for Appellate Judge from this Appellate district. Mr. Walker has the reputation of being a very erudite scholar, an urban gentleman, and deeply read in the law and familiar with all the details of the practice of the law, which he possesses a large and lucrative share.

FRED BOUTWELL, who has spent a great portion of his life in teaching and helping the negroes against white hatred, has recently married a white woman, Helen Pitts. He is now sixty-five years old, while his blushing bride is only thirty-three. We suppose Mr. Boutwell has had to set up a life in the kingdom of his own, and a white people would not associate with his wife because she married a negro and the negroes won't associate with her because she married a white woman.

In an interview with a St. Louis reporter, Geo. Hancock said: "I have had a delightful tour among the south of the Southwest, and I find the army in Spain completely disintegrated. The next President will be a Democrat. I certainly do, unless the party continues to disintegrate. The tariff question is naturally coming up again, and is destined to become the issue in the political campaign. A white lie is going to make himself great as Speaker of the House, and his tariff views will undoubtedly become the Democratic party platform. Yes, there is every reason to believe we will win this time."

THERE are forty-three men awaiting trial in Cincinnati for murder, yet the Northern papers keep howling about the murders in Kentucky. We do not know of any large number of murders committed in Kentucky, and we do not know of any large number of murders committed in Kentucky. We do not know of any large number of murders committed in Kentucky. We do not know of any large number of murders committed in Kentucky.

The census last Friday night named Mrs. Roger Hanson for State Librarian. There were several aspirants, but under the rule, they kept dropping the hindmost one, until the new came up between Mrs. Hanson and Mrs. Cook, the present incumbent. The vote was then taken by ballot, and in a tie, which created great excitement, Senator Bruce, who had cast the proxy vote and was acting as teller, for Mrs. Cook, asked to change that vote for Mrs. Hanson. Representatives B. R. Hatfield and Caldwell, champions of Mrs. Cook and Mrs. Hanson, started to vote Senator Bruce, to influence him, one for the other against him changing the vote and, under the rule, he was trying to reduce order, Representative Cranmahan cast his vote for Mrs. Hanson, giving her a majority of two. Mr. Hatfield, who had by this time exhausted himself from the difficulty, came and after making an apology for his actions, moved that the election of Mrs. Hanson be made unanimous.

Mrs. Hanson was formerly Miss Virginia H. Peters, and is now the widow of the late General Roger Hanson, the hero of the battle of Shiloh. Mrs. Cook's term of office will expire in June.

—Just received a nice assortment of furniture at G. J. BEAN'S.

—Anderson's Bazaar made a purchase last week of four thousand yards of Domestic. This, we suppose, is the largest lot ever brought to this market. And, to the large assortment of goods that it means that there will be a considerable advance in domestic within the next thirty days. We understand that the price paid was far below its actual value.

—J. F. Worners has accommodated a great many persons in the past by giving them time to pay for the same. Forbearance has caused to be a virtue and those persons are deeply indebted to call and settle their accounts. He also has some accounts against him which are known as "a few days men" who are due to him in a few days, a few months and even a few years have elapsed and their accounts are still unpaid. Mr. Worners is a good man and will call through this medium. Call and settle and save cost.

—The farmers of Ohio county will do well to see Tracy & Son, before buying plows and other agricultural goods elsewhere, as they think they can do better by you than others, they will have the boss plows and cultivators in the market, and will buy them so that they can sell them low.

—A youth from one of our rural products was in town Sunday evening, and was in such a low condition that he tried to kill all the negro boys on the street. As the negroes beat him, he fell back on his side of the building, and was consuming many tons of coal. Then, the youth was taken to the hospital, and died. This was an accident, and we hope it will be an end to the feud, as both are citizens. G. C. Walling deputed Leach.

Red Front has the nicest cream cheese in town. Try it.

—Wanted, a good piece of dry earth about the size of a standard-size, on one of our streets a day or two ago, and the little boys were on it as thick as black birds on a hay stack, playing kum.

—The building committee of the new Baptist church have received the bell for the same. The church will be completed as soon as the weather moderates a little. Those having subscribed money for the church should pay at their earliest convenience, as the Committee are anxious to use of funds.

—During the past month the sky was nearly all the time over shadowed by clouds, hardly a ray of sunshine was seen to gladden our hearts with its brightness. It will be all sunshine not varied by shadow, it would soon be a monotonous, though we often think when the material heavens are shrouded in gloom, that light and gladness would be perpetually appearing.

—Taken, from my pasture, near Stacy Creek church, last Saturday, about 1 o'clock, by Samuel Lee Maddox, one of our young men, four years old, small for his age, and in order to sell.

—Maddox is about five feet high, weighs about 130 pounds, blue eyes. A liberal reward will be given for the return of the mare or her mare, or for the return of the mare.
